RE: CERTIFICATE OF ACCEPTANCE DOCUMENTATION FOR LIGHTING  
CONTROLS - CALIFORNIA ADVANCE LIGHTING CONTROLS TRAINING PROGRAM

Dear Mr. Ouellette:

On February 25, 2015, the Energy Commission authorized me to approve, under section 10-103(a)(4)(A) of the Building Energy Efficiency Standards (Energy Standards),<sup>1</sup> alternative Certificate of Acceptance compliance documentation developed by Energy Commission-approved Acceptance Test Technician Certification Providers (ATTCP) that conforms to the format, informational order, and content of Certificate of Acceptance forms previously approved by the Energy Commission.<sup>2</sup>

Based on Energy Commission staff's review, I find that the four Certificate of Acceptance compliance documentation forms (NRCA-LTI-02, NRCA-LTI-03, NRCA-LTI-04, and NRCA-LTO-02), developed by the California Advanced Lighting Controls Training Program (CALCTP), an Energy Commission approved ATTCP, conform to the format, informational order, and content of the Energy Commission approved Certificate of Acceptance forms. Therefore, I approve NRCA-LTI-02, NRCA-LTI-03, NRCA-LTI-04, and NRCA-LTO-02 as Energy Commission approved Certificate of Acceptance forms.

All agencies with the authority to issue building permits may accept CALCTP's third-party Certificate of Acceptance forms (NRCA-LTI-02, NRCA-LTI-03, NRCA-LTI-04, and NRCA-LTO-02), to certify compliance with the lighting controls acceptance testing requirements of Section 130.4 of the Energy Standards.

<sup>1</sup> Cal. Code Regs., tit. 24, pt. 6, and associated administrative regulations in pt. 1, ch. 10.

<sup>2</sup> Energy Commission Order No. 15-0225-01g (February 25, 2015).

Mr. Mark Ouellette
